DECLARATION OF CONFORMITY

Manufacturer: KRPA DEHTOCHEMA, a.s. with its registered seat
Svoboda nad Úpou,
Nádražní 450, District of Trutnov, Zip Code: 542 24,
herewith declares and confirms under its own responsibility that the following product:

Bitumen Sheet A 330

represents a bitumen band from raw rag felt which is impregnated by bitumen.

Feature and application:
The A 330 shall be used for auxiliary water-proofing functions in building structures, e.g. as reinforcing inlays in coating covers in combination with wet bitumen paintings, as temporary coverings of smaller buildings, as securing insulators and for other purposes connected with band features.

Wrapping:
- solid paper wrapping or special tapes
- products shall be supplied on a palette unit of 800 x 1200 mm and they are secured by means of the PE film

Transport and Storage:
Rolls shall be transported and stored on one layer and in vertical position (i.e. with their axes perpendicularly to a floor). Protect from direct sunshine

Application: free laying

Guarantee: 2 years

Technical Parameters:

Features	Unit	Testing Method	Values
Apparent defects	-	ČSN EN 1850-1	without apparent defects
Minimal length	m	ČSN EN 1848-1	30
Minimal width	m	ČSN EN 1848-1	1
Band´s surface weight	kg/m²	ČSN EN 1849-1	0,6 ± 5%
Stress-strain properties: Max tension force - lengthwise - crosswise Extension - lengthwise - crosswise	 N/50 mm %	ČSN EN 12311-1	 300 ±50 200 ±50 2 ±1 2 ±1
